Subject: RE: WDNR; Reporting Requirements for Emissions Data and Claims of Confidentiality

Under this new system, the requestor has to forward the form to our AO, Darlene Weatherspoon. That seems to be the reason for most delays.

Thanks, Deb. Hey, quick question. When a staff person puts in a request for an attorney who gets notification when one has been assigned? The staff person or their supervisor? Emily Crispell put in a request for an attorney for this response and she hasn't gotten any notification. Her supervisor, Pam, is out. So, we were wondering if notification went to Pam or if one hasn't been assigned yet.

From ORC, we are fine with you signing the letter. Thanks Doug.

FYI. I checked in w/WDNR on this yesterday and they recognize that this is a problem and have been working on addressing it internally for some time. It sounds like moving forward, they will include emissions data even from those sources that seek business confidentiality as emissions are not confidential. I'm coordinating a response w/Maria Hill, WDNR, saying something to this effect and asking that they contact WDNR on these efforts if they have additional questions.

Since this letter was originally addressed to Mike and Rett, does anyone in ECAD or ORC want to sign or are you ok w/me signing?

Looping in Doug. The [Air Emissions Reporting Requirements](#) only require that criteria pollutants be reported. Many states report toxics voluntarily (and there's a new push to make it required), so I think this letter may be referring to the criteria side.

Doug, maybe someone could check the inventory for the Kohler Metals Complex?

Katie – Would you please take a look here and let me know what you think?

Thanks,
Eileen

Fyi. Please let me know which Division will respond. I'll make sure you have ORC support.
